

About 8 of every 10 Pacific Islanders were native.¹³

- About 78 percent of Pacific Islanders were native, compared

with about 96 percent of non-Hispanic Whites.

- In addition, about 7 percent of Pacific Islanders were U.S. citizens through naturalization, compared with about 2 percent of non-Hispanic Whites.

¹³ Nativity is determined by U.S. citizenship status and place of birth. Natives are those born in the United States, Puerto Rico, or a U.S. island area (the U.S. Virgin Islands, Guam, American Samoa, and the

Commonwealth of the Northern Mariana Islands) or born abroad of a U.S. citizen parent. All other individuals are considered foreign born.
